

PEA RIDGE FIRE DEPARTMENT CORE COMPETENCY DRILL

Ladder—Attic Ladders

DESCRIPTION AND EXPECTED PERFORMANCE: Each member will demonstrate the proper deployment of an attic ladder. Utilize full PPE/SCBA to simulate deploying the ladder in an IDLH environment. Explore and demonstrate the possible functions of an attic ladder for rescue.

Length: 2 HOURS

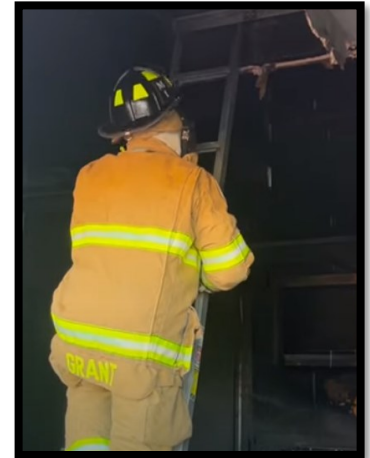

REFERENCE: PRFD S.O.G.s for Department Ground Ladder Information and manufacture recommendations.

Equipment, Props, Information or Other Resources Needed: Full Turnout Gear and SCBA. Attic Ladder, Confined space to simulate carrying and throwing an attic ladder inside of a home.

INSTRUCTIONS FOR THIS CORE COMPETENCY DRILL

1. *Deploy Ladders for Attic Access*
2. *Deploy Ladders for Basement Rescue*
3. *Demonstrate how an Attic Ladder can be Used Upside Down.*
4. *Clean and Oil all Components of the Attic Ladders.*

Attic ladders have multiple uses. Think outside the box!
