

# PEA RIDGE FIRE DEPARTMENT

## CORE COMPETENCY DRILL

### Building Construction — Structure Collapse Awareness

**DESCRIPTION AND EXPECTED PERFORMANCE:** To provide all personnel with the information and knowledge necessary to enact initial and support operations during structure collapses. Review and discuss the linked presentation with the crew. Identify the necessary resources both in department and via mutual aid that would most likely be needed in a structural collapse situation.

**Length: 2 HOURS**

**REFERENCE:** NFPA 1001, and Technical Rescue Standards. Firefighting Essentials, current ed. IFSTA. PRFD SOPs and Guidelines related to structural collapse rescue.

**Equipment, Props, Information or Other Resources Needed:** S.O.G.'s on guidance when to monitor for C.O. and to identify what amounts are required to be clear for members to discontinue SCBA use.
